

**HARRISONBURG ELECTRIC COMMISSION
SCHEDULE 525 - LARGE INDUSTRIAL SERVICE**

- I. APPLICABILITY:** This Schedule is applicable to all general purposes of any customer contracting for a demand of 1,000 kw or more..
- II. CHARACTER OF SERVICE:** Service supplied shall be alternating current three phase, 60 cycles. Voltage supplied will be at the discretion of the Distributor and will be determined by the voltage available from distribution lines in the vicinity and/or other conditions. All services installed will be overhead services unless otherwise provided for.
- III. MONTHLY RATE**
- a. kwh Charge
 - First 750,000 kwh @ \$0.04355 = \$32,662.50
 - Excess over 750,000 kwh @ \$0.03515
 - b. Plus Demand Charge
 - First 300 kw or less @ \$17.10 = \$5,130.00
 - Additional kw over 300 \$14.45
 - c. Plus rkva Demand Charge
 - All rkva of Demand @ \$0.15
 - d. Fuel Adjustment: Each kilowatt-hour used is subject to adjustment for charges in fuel costs, provided such fuel costs are charged to the Distributor by its supplier.
 - e. Wholesale Power Adjustment: From time to time the Distributor may charge the Customer for additional wholesale power cost charged the Distributor by its supplier. The charge will be added to each kilowatt-hour purchased by the Customer.
 - f. Monthly minimum charge will be the demand charge as determined below but not less than 1,000.
- IV. DETERMINATION OF KW DEMAND: Where the KW of demand is 1,000 or more, the kw of demand billed shall be the highest of:**
- a. The highest average kw measured in any 30-minute interval during the current billing month, or
 - b. 90% of the highest kw of demand used for billing during the preceding eleven billing months, or
 - c. 1000 kw
- V. DETERMINATION OF rkva DEMAND:** The rkva of demand billed shall be the highest average rkva measured in any 30-minute interval during the current billing month.
- VI. STANDBY AND RESALE SERVICE:** All electric service (other than emergency or standby service) used on the premises of Customer will be supplied exclusively by Distributor and the Customer will not directly or indirectly sell, sublet, assign, or otherwise dispose of the electric service or any part there of. Standby and Breakdown service will be supplied only through negotiated contract. Where the Customer has installed emergency generating equipment, the Customer will install and maintain approved manual or automatic transfer switches so arranged that it is impossible to connect the Customer's generator directly or indirectly to the Distributor's system. Parallel and Relay service will not be permitted.
- VII. PHASE BALANCE:** Each three-phase Customer will at his own expense maintain reasonable phase load balance between phases. Service unbalance will not exceed 25% of the kw contract, or 33% of the kw billing demand. If phase unbalance is not maintained by Customer to within 25% of the kw contract or 33% of the billing demand, the contract demand will be increased to three (3) times the maximum phase kva.
- VIII. BILLING AND PAYMENT:** All bills will be rendered monthly and are due when rendered. If not paid on or before the past due shown on the bill, a 5% delayed payment charge may be added. If payment of bill is received after past due date the delayed payment charge may be included in the next month's bill. Waiver of delayed payment charge can only be made by the Commission, and will be considered only upon written explanation of reason for the request.
- IX. OTHER CHARGES:** Customers supplied under this schedule are subject to deposits, connection charges, fees, taxes, etc. as set forth in Schedule No. 11 of the Distributors Schedule of Rates and Charges.
- X. SINGLE-POINT DELIVERY:** The above rates are based upon the supply of service through a single delivery and metering point and at a single voltage. Separate supply for the same Customer at other points of use or a different phase or voltage will be separately metered and billed.

XI. TERM OF CONTRACT: The term of service under this Schedule shall be as mutually agreed upon but never less than one year.

XII. RULES AND REGULATIONS: Service under the above rate is subject to the Schedule of Rules and Regulations, as amended, of the Distributor, which constitute a part of these rates.

XIII. Example (Does not include applicable taxes or fuel adjustment)

900,000 kwh; 1000 kw; 500 rkva		
750000 kwh *	\$0.04355	\$32,662.50
150000 kwh *	\$0.03515	\$5,272.50
	Total	\$37,935.00
300 kw *	\$17.10	\$5,130.00
700 kw *	\$14.45	\$10,115.00
	Total	\$15,245.00
500 rkva *	\$0.15	\$75.00
	Total	\$53,255.00
